SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2012 total allowable catch (TAC) of pollock in Statistical Area 620 of the GOA is 45,808 metric tons (mt) as established by the final 2012 and 2013 harvest specifications for groundfish of the GOA (77 FR 15194, March 14, 2012).

As of September 27, 2012, approximately 5,200 mt of pollock remain in the 2012 TAC for pollock in Statistical Area 620 of the GOA. Based on fleet capacity and potentially high levels of fleet participation in this fishery, the Administrator, Alaska Region (Regional Administrator) has determined that the pollock TAC for Statistical Area 620 of the GOA could be exceeded if a fishery were allowed to occur. NMFS, in accordance with § 679.25(a)(1)(i), § 679.25(a)(2)(i)(A), and § 679.25(a)(2)(iii)(B) is issuing an inseason adjustment prohibiting directed fishing for pollock in Statistical Area 620 of the GOA. The Regional Administrator has determined that this action is the least restrictive necessary to ensure that the TAC not be exceeded.

After the effective date of this closure the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

This action responds to the best available information recently obtained from the fishery. The Acting Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) and § 679.25(c)(1)(ii) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the closure of directed fishing for pollock in Statistical Area 620 of the GOA. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of September 27, 2012.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 et seq.

Dated: September 28, 2012

Lindsay Fullenkamp,

Acting Deputy Director, Office of Sustainable Fisheries,

National Marine Fisheries Service.
